

Fire & Lockdown Procedures

In the event of a fire or evacuation, a continuous alarm will sound. All staff, students, volunteers and visitors should calmly leave the building by the designated exits and proceed to the assembly point on the playground at the rear of the school. Visitors will be escorted to the assembly point by their host.

In the case of specific threat that requires the building to be secured – a lockdown will be initiated, and a longer intermittent alarm will be triggered. All visitors should ensure they lock/secure the space they are in and place themselves out of site as best possible. The end of a lockdown will be determined by the fire alarm.

We strongly believe that it is everyone's responsibility and duty to report faults and hazards to someone in authority. If you notice something that causes concern, or if you have any first aid requirements, please notify a member of the site team or main reception.
